

The Online Alternative Spring 2007

If you are looking for a way to take classes but find it difficult with your busy schedule, maybe online is the answer for you. With online classes, you can go to class anytime 24 hours a day, 7 days a week. Online classes are designed so you learn the same information as you would going to a “regular” class. While online makes going to class easier, it does not necessarily make it less demanding. With the flexibility of online comes greater responsibility. Online students must be focused, highly motivated, self-directed, and have some computer skills to succeed. Online classes may have scheduled assignments, activities, and deadlines and may not be designed to be completed at your own pace. For more information on whether online is right for you, visit the Distance Learning link on our Website at www.mpcc.edu or call the Distance Learning Coordinator at 1-308-535-3717.

ONLINE CLASS OPTIONS

Course #	Course Name	Credit Hours	Start/End Date	Instructor
ACCT 1040 MC 1L	Introductory Accounting II	3	1/15-5/10/07	Weber weberj@mpcc.edu
